## Gävle Stevedoring selects Hogia once again

**Stuveribolaget Gävle (Gävle Stevedoring Company) is in the process of deploying a successful and market leading solution from Hogia Terminal Systems, and will in cooperation with the Port of Gävle, takes yet another step in the development of creating an efficient logistics hub on the Swedish east coast.**

Gävle Stevedoring implemented Hogia Terminal Cargo during the spring of 2011 with the goal to streamline SSAB goods volumes at a new warehouse in the terminal area. The solution has met their expectations on reduced costs and improved traceability as well as analyzing flows that develop and optimize operation. As a result, Gävle Stevedoring selected Hogia as the strategic IT partner for the entire operation.
